# Preface

Since the fall of 1987, the Missouri Department of Higher Education has annually collected student unit-record information from public institutions across the state. Now known collectively as the Enhanced Missouri Student Achievement Study (EMSAS), these collections have proven invaluable in the ongoing analysis and evaluation of postsecondary education in Missouri.

The MDHE requests this information pursuant to its authority under Sections 173.005 and 173.020, RSMo, and 6 CSR 10-4.021, as well as in compliance with the provisions of the federal Family Educational Rights and Privacy Act (FERPA). Access to identifiable student records contained in the data is protected in accordance with FERPA. Aggregate (non-identifiable) summary information derived from these data enable the MDHE to appropriately meet its statutory and other evaluation and reporting requirements, including the annual publication of the [High School Graduates Performance Report](#) and the [Statistical Summary of Missouri Higher Education](#).

Over nearly three decades, EMSAS has undergone many improvements in regards to data quality as well as administrative efficiency. To a large extent, these improvements embody the collective efforts of institutional data coordinators and MDHE staff. Because of these improvements, EMSAS is playing an increasingly important role in assisting strategic planning and policy implementation at both the state and institutional levels. It is in this role that we expect the EMSAS will continue to provide reliable, timely, and responsive information to help strengthen Missouri higher education to the benefit of students, families, policymakers, and institutions.

## Data Reporting and Review

<i>EMSAS Collection</i>	<i>Included Terms</i>
Current <b>Fall Enrollment</b>	Current Census Date Fall Enrollment (e.g. Fall 2015)
Previous Year <b>Completions</b>	Summer, Fall, Spring / Winter (e.g. Summer 2014, Fall 2014, and Spring / Winter 2015)
Previous Year <b>Term Registration</b>	Summer, Fall, Spring / Winter (e.g. Summer 2014, Fall 2014, and Spring / Winter 2015)

EMSAS files are to be submitted annually by all public institutions and campuses in Missouri, as well as all institutions participating in [Missouri Reverse Transfer](#). Specific reporting deadlines will be provided by MDHE staff in an annual “Class A” data request letter, to be provided to institutions each year in accordance with 6 CSR 10-4.021. In general, however, completions and term registration files are to be provided by mid-September each year, and fall enrollment files are to be provided by mid-October. All files will be reported to the MDHE via State Report Manager- <http://dhe.mo.gov/data/srm>, error checked, certified, and approved by MDHE staff upon receipt.

Files should be submitted as comma-separated values (\*.csv) format.

Where appropriate, data should be exported in a format which preserves leading and trailing zeroes (institutional FICE code, social security number / student campus ID, and CIP code are examples of data elements in which this may be important).

Definition:	Dichotomous flag to indicate if a student has completed the Coordinating Board for Higher Education-recommended high school core curriculum
Comments:	CORE was deprecated in EMSAS Fall Enrollment from 2010 through 2014, because DESE public high school graduation requirements and the CBHE Recommended High School Core Curriculum were substantially equivalent from fall 2010 through fall 2013. Beginning in Fall 2014, however, the CBHE Recommended High School Core Curriculum included a fourth credit (year) of math. Because students could again graduate from a Missouri public high school without meeting the CBHE recommendations, CORE has been reactivated in EMSAS. Status should be reported for all <b>same-year</b> Missouri high school students graduating with a regular diploma. Reporting will be optional in fall 2015.

Reporting institutions may exercise discretion in regards to which courses are “exclusively” delivered as distance.

**Field Name:** FLELECT

**Descriptor Long:** Number of Foreign Language Courses

**Field Position:** E: 210-211

**Field Length:** 2

**Field Status:** Optional

**Definition:** The number of courses, or units, of foreign language study, that the student took which apply to the CBHE-recommended high school curriculum for admission to a Missouri public four-year college or university.

**Comments:** This field is required for all first-time undergraduates. High school foreign language courses applicable to the CBHE recommended high school electives include course such as: (1) Chinese, (2) French, (3) German, (4) Greek, (5) Hebrew, (6) Italian, (7) Japanese, (8) Latin, (9) Russian, and (10) Spanish. Any language spoken by citizens of a non-English-speaking country applies to the foreign language elective.

Record in this field the number of units of foreign language, defined as one full year of study, that are applicable to the CBHE-recommended high school core curriculum electives. For example, a student taking two (2) years of high school German would have a '20' recorded in this field. A student taking three and one-half years of Russian and one year of Spanish would have '45' (4.5 years) recorded in this field. Includes an implied decimal (9v9).

The high school foreign language courses applicable to the Coordinating Board's recommended high school electives typically include such courses as: (1) Chinese, (2) French, (3) German, (4) Greek, (5) Hebrew, (6) Italian, (7) Japanese, (8) Latin, (9) Russian, and (10) Spanish. Any language spoken by citizens of a non-English-speaking country applies to the foreign language elective.

DESE High School Graduation Requirements and the CBHE Recommended High School Core Curriculum were substantially equivalent for high school graduates entering from fall 2010 through fall 2013. Beginning in Fall 2014, however, the CBHE Recommended High School Core Curriculum included a fourth credit (year) of math. Because the remainder of the requirements remain substantially equivalent, all high school content area credit hour fields are now optional **except** for HSMATCRS.

**CodesetComments:** First-time students include those undergraduates who have never attended any college or those who enrolled for the first time in a graduate program. Students who entered college or enrolled in a graduate program for the first time in the prior summer term may be re-coded as first-time students in the fall term. Also included as first-time students are those who entered with advanced standing (college credits earned before graduation from high school.)

Continuing students are continuing their studies at the reporting institution. Those who were classified as first-time students in the fall, for example, are to be classified as continuing students in the following spring semester. Students coded as transfers or readmitted in the previous semester would also be coded as continuing students for the subsequent registration period.

Transfer students are those undergraduates or graduates who were enrolled in a different college or university during a prior semester or academic term and the term being reported is the first registration of the student at the reporting institution. The first time a student enrolls as a transfer student, the student's enrollment status should be coded '2' for transfer student. In subsequent semesters, the student's enrollment status should be coded '3' for continuing student.

A readmitted student is a student who either dropped out or stopped out of
